We have a passion for leather. Leather making is a centuries old practice that has changed over the years due to the huge advances made in technology, however to this day it remains very much the work of an artisan. Our highly-skilled technicians continually strive to create the best leather articles available on the market, pioneering new and innovative looks and overhauling the classics.

Whether creating durable fabrics for furniture or bespoke woollen drapes for a boutique hotel, we work tirelessly to make sure our textiles always enhance an environment.
